Working with other law firms

We provide an effective and efficient service to international clients on their cross-border matters, both inbound and outbound, across regions including Europe, Asia, North America and the Middle East.

We deliver our service through a combination of our own offices and by working closely with a number of leading independent firms, delivering the coordinated and high quality service our clients demand.

Enhancing and developing our relationships with law firm partners worldwide who share our rigorous focus on high quality advice, excellent service and sensible pricing is an essential component of our strategy.

This enables us to provide (and quarterback) best in class local law advice to our clients. The success of these mutually beneficial relationships is very important to us and so we are delighted to be re-connecting in person at the IBA in Paris.
